### **A Message From NHS Devon ICB**

*NHS Devon ICB, and many ICBs across England, are facing significant demand for ADHD services. This demand is higher than NHS resources available and therefore we are currently having to manage demand and keep services within locally available budgets. This means that patients who may have been seen sooner, will have to wait longer for services, due to demands on our current waiting list.*

*At present we are aiming see those patients who have been waiting the longest, and ensuring no one waits more than 52 weeks, from receipt of referral from your GP.*

*Please be assured you will not lose your place on the waiting list, and you will retain your original referral date, but the date when we can now assess you will now be delayed. Sadly, we are not able to give you an exact date when you will be seen, but we ask that in the meantime you ensure your patient portal is all up to date, we are happy to support you through this if required.*

*We, and the ICB, deeply regret the disruption this may cause and understand the impact this decision may have on your care.*
